

ANNUAL REPORT **OF THE TOWN OF** **GRAY, MAINE**

FOR THE FISCAL YEAR JULY 1, 1997, JUNE 30, 1998

Town Manager's Report

To the Citizens of Gray:

First, I want to take this opportunity to thank the Town Council, town employees and all the residents I have met for the warm welcome I have received. I appreciate it.

As you may know, I have been here in Gray for about six months, and I am still learning every day about the community. And since I have been here only a short time, my impressions of the community are still in the development stage. Since municipal reports tend to review the accomplishments and highlights of the past year, I think it is appropriate to give credit for last year's accomplishments to the people who really deserve it: the town employees, citizen volunteers and elected officials.

With that in mind, I thought I would look forward to the upcoming year. Gray is poised for its next step, and I see my duty as helping the community make that step. I believe the community is laying the groundwork for a positive future and this year the Town will take small but important steps in the direction. I want to aid the Council, Town committees and employees in taking those steps.

First, I want to assist the Community Economic Development Committee in marketing the community. The ability to grow successfully starts by getting the word out. I believe the Committee's planned business round tables and brochure projects are essential to this

important task.

Second, I want to work on building a strong infrastructure for Gray. Whether it is roads, fire and police protection or general services, I want Gray to have the best we can offer to businesses and our citizens, while at the same time maintaining a cost-sensitive municipal budget.

Third, we need to resolve and close various third-party issues. A McKin site resolution appears promising, and various legal appeals should be determined by this spring.

Fourth, we must address civility as an issue. Whether it is the municipal staff interacting with citizens, committee members discussing respective committee issues or the Council debating important matters, we as a community must take a leadership step in this direction. It is all right to disagree, respectfully, but when all is said and done we must move forward as a team, as a community.

Last, I want to ensure an open government to all of Gray's citizens. I believe it is important for local government to listen to its citizens. I also believe it is just as important for community residents to communicate with their government, both with praise as well as concerns. Community government is a two-way street, and is only as good as its relationship between the citizens, officials and its public servants.

Sincerely,
Peter M. Jankowski
Gray Town Manager

Report from the Town Council

This was a busy year for the Gray Town Council. Paul Bird resigned as Town Manager, after eight years of service. The council appointed a citizens' committee to conduct a search for a new Town Manager. The committee reviewed all applications and narrowed the choice to two applicants who were recommended to the Council. The Council hired Peter Jankowski as the new Town Manager to begin work in March of 1998.

The Town, along with surrounding communities, was hit severely by the Ice Storm of 1998. Most of the Town was without power from several days to two weeks. Gray-New Gloucester High School was utilized as a temporary shelter for residents who were without power and who needed a place to sleep, as well as providing meals for residents. The Council held a banquet in honor of all of our local volunteers who donated many, many hours of their time to assist during

the ice storm. The volunteers were presented with T-shirts made especially for them, and refreshments were served. The Red Cross was also very much involved in serving our local residents during the disaster.

The Council ended the 1997-98 fiscal year by presenting the Town's budget at the Annual Town Meeting in June. They were able to present a municipal budget with minimal increases for the 1998-99 fiscal year.

The Gray Town Council

Peter T. Gerardo, Chair
Anthony Cook, Vice Chair
Donald Doyle, Councilor (resigned)
Frances Monroe, Councilor
Ronald Norton, Councilor
Mark Sanborn, Councilor

Town Office

The July-through-June 1997-98 year saw a lot of changes in the Town Office. Cathy Curtis left to work at Unum; Denise Rich replaced her; Jim Thomas, assessor, left to further his Education and was replaced by Helen Taylor; Helen Taylor's position as secretary to the Code Enforcement Officer, Planner and Assessor was filled by Deborah Parks; Paul Bird left as Town Manager to be Manager in Millinocket, and Peter Jankowski, who had been Town Manager in Milbridge, replaced him; Rick Wyman, our maintenance man, moved to Florida and was replaced by Edward Milose. The office staff wishes Peter Jankowski all the best as our new Town Manager.

The New Year came in like a lion, with the ice storm of '98, with trees down, electrical wires covered with ice, roads closed, no school. The public works department, along with the fire department and volunteers, did a remarkable job.

Speaking of changes in the Town Office, we saw the monument moved to its new location (looks great!). Also, the new McDonald's has arrived to the corner of Brown Street.

So we have survived a lot of changes in the last year, and now it is time to move on.

A major project was raising \$32,500.00 for the Pennell Town Clock. It really sounds great to hear the clock ring once again!

On a personal note, I would like to thank all of the Town employees who helped me through my term as Interim Town Manager. Their encouragement and

support made it possible for the Town's affairs to be handled smoothly and efficiently.

Donna M. Hill
Office Manager

Town Officers

Town Manager, Town Clerk,	
Treasurer, Tax Collector, Road	
Commissioner	Peter Jankowski
Tax Assessor	Helen Taylor

District 41 Gray and part of New Gloucester

House of Representatives

To the People of Gray:

The last half of the session of the 118th Legislature saw all but \$76 million surplus of a \$300 million surplus spent on new or expanded programs including child health insurance, DEP regulations, funds for higher education, school construction and general education. Seventy-six million was returned to the people through the Homestead Act, so called, for reducing property taxes on residences via a reduction in valuation on each home by \$7,500 if the owners applied. An attempt to reduce the sales tax back to 5% failed. An increase in the cigarette tax was passed to fund an effort to reduce smoking by teens, the result of which remains to be seen.

Also, an effort to get roads repaired prior to the State giving back the maintenance to several Towns, including Gray and New Gloucester, resulted in the improved drainage and paving of Route 100 through new Gloucester and into Gray.

Final legislation to convey the building at Pineland

to SAD #15 was enacted. As school buildings go, no better deal could have been accomplished for the money. Legislation initiated by Representative Burchard Dunn, for me, was one of the high points of the 118th Legislature which directly affected the Towns of Gray and New Gloucester. Although the final disposition of surplus funds was somewhat disappointing, the increased aid to education, funds for insurance for children under 18, the Burchard Dunn School, and the improvement of Route 100 can all be counted in the asset column of the Towns of Gray and New Gloucester.

It has been my pleasure to serve the people of Gray and New Gloucester, and I appreciate the opportunity to do so.

Respectfully submitted,
 Clifton E. Foster
 State Representative

The Senate of Maine

January 8, 1998

Dear Friend:

I want to take just a moment to thank you for providing me the opportunity to represent your best interests in August during the past 3 years. The second session of the 118th Legislature, which begins this week, will be my last as I have decided not to seek reelection to the Maine Senate in 1998.

I can assure you that this decision did not come easily as I have enjoyed my work as your state senator. For me it is a matter of priorities and I simply want to spend more time with my children. These are exciting times for Jenna (13), Meghan (11), and Jeff (9), and I don't want to miss another concert, ballgame or homework session.

As we have come to expect, finances will take center stage once again in Augusta in 1998. Presently the state is running a surplus in excess of 4200 million and by law must utilize 75% of that surplus for tax relief. Unfortunately, tax relief - like beauty - is in the eye of the beholder. Some say spending more money for a growing list of worthy programs will eventually spell relief. While others, who are concerned with

Maine's ranking as a high tax state, want direct tax relief in the form of lower rates. I will be advocating for a reduction in the sales tax from six cents to five. It will fulfill a pledge that is long overdue.

Two major issues scheduled to come before my committee - Natural Resources - will be the resumption of auto emissions testing for Cumberland County and the adoption of recommendations from the Great Ponds Task Force. Both issues have the potential to significantly impact Gray residents and should generate a good deal of debate.

Although I will not be seeking re-election, I will continue to represent Gray with the same enthusiasm that has characterized my tenure in Augusta. Please don't hesitate to call if you have questions or concerns about issues before the legislature. Best wishes for a productive and cooperative town meetings.

Sincerely,
Jeff Butland
State Senator

Code Enforcement Officer

It has been a year of change. The statue has been relocated, we have a new Town Manager and the traffic in the center of Town has been revamped. Growth is on the rise in Gray and surrounding Towns. People have finally realized what a beautiful Town Gray is and are locating here. We have an attractive new bank, Androscoggin Savings Bank. True Value has finished with its major renovations that include a new credit union called Portland Regional; Alpine Tours has decided to located in Gray and by the end of October, we will have a new Chinese restaurant, China Gray.

I enjoy working with all landowners in assisting and finding the best possible solution. I would like to remind you that a building permit is needed for any construction or structure, whether it is a temporary shed, dock, deck, etc. A permit is also needed for remodeling, replacing a structure, demolition and any

additions to any structure.

I continue to have questions regarding shoreland zoning, which is good. One of the most frequently asked questions is, "How come they can cut down all those trees and we can't?", or, "They got to put in a lawn and you won't allow me to." Allow me to explain what can be done within 100 feet of a water body (lakes and rivers) and within 75 feet of streams, as far as "clearing of vegetation". With permission from the Town, you are allowed to selectively cut trees. Within 100 feet of lakes and rivers, you cannot remove existing vegetation under three (3) feet in height, and other ground cover shall not be removed, except to provide a footpath, with Town approval. Any disturbance of soil (filling and earthmoving) within 250 feet of the waterbody needs Town approval, and within 100 feet of the water would require approval from the

Department of Environmental Protection. A permit must be given any time a recreational vehicle is placed on the lot and utilized as a dwelling space; the space must meet certain requirements, including a written sewage disposal plan. These are a few areas of concern that are raised by many on a daily basis. My response to each of you is, if you do not know, I am only a telephone call away and will try my best to find the solution that fits within the ordinance and what you would like to do.

Outside of shoreland zoning, as many of you know, we have a Zoning Ordinance. There are setbacks to meet, and the areas are "zoned" as to what you are allowed to do on any particular lot. Please call me if you have any questions; that is what I am here for.

In other Code Enforcement areas, we have

approved the following between July 1, 1997, and June 30, 1998: 239 building permits (68 new dwellings, of which 7 were mobile homes); 2 commercial sites; 19 garages; 168 additions (swimming pools, decks, sheds, renovations). We also issued 189 plumbing permits and 154 electrical permits.

I look forward to working with each of you. Any time you have a question regarding any building or land use standards, I will make every effort to answer it. It is my goal to treat everyone equally and fairly in obtaining permits.

Respectfully submitted,
Reneé Carter
Code Enforcement Officer

Town Planner

The Town Planner's activities for the fiscal year ending June 30, 1998, may be grouped under the categories of development, grantsmanship, codes and ordinances, committees, and geographic information systems.

Development

Some of the new development and expansions worked on during the 1997-98 fiscal year included the new Androscoggin Savings Bank, the 18-hole Cole Farms Golf Course, Auto Auction of New England, Gray Ministorage facilities and Rite Aid Pharmacy.

Grantsmanship

Grants applied for during the year included a Solid Waste Recycling grant for recycling bins; the Tax Incentive Financing District for Gobeil's Country Farm Furniture; and a Collector Road Development Grant for improvements to Route 115 (Yarmouth Road.)

Codes and Ordinances

In addition to several Zoning Ordinance amendments, major changes were made to the Shoreland Zoning Ordinance in order to expedite the review process by transferring certain routine reviews from the Planning Board to the Code Enforcement Officer.

Committees

During the past year, the Town Planner served on several Greater Portland Council of Government

committees; the Growth Council of Oxford Hills Route 26 Corridor committee; and the Cumberland County Planners Association.

Also, the Town Planner provided staff support to the Traffic Committee, the Planning Board, the Ordinance Review Committee, the Conservation Committee, the Civil War Monument Landscape Committee, and the Community Economic Development Committee.

Planning Board

The Planning Board, among other things, reviewed and acted upon three minor subdivisions, two daycare facilities, twenty-six shoreland zoning applications, and six site plans including a two-story office building on Route 100, an apartment complex on Whitney Road, an antique shop, a proposed addition of a three-story building at Gobeil's Country Farm Furniture, a new autobody and used-car sales building and a four-unit apartment complex on Yarmouth Road. In addition, the Board held several workshops, all designed to improve the processing and flow of information and applications.

Geographic Information Systems

The Town Planner and the Assessor attended classes held at the University of Southern Maine to learn the latest techniques in computerized geographic information systems. These classes will help the town to set up a more efficient system for internal operation.

Ordinance Review Committee

The Town of Gray Ordinance Review Committee works to revise and adjust Gray's Zoning Ordinances to help guide the growth of our town such that it develops in an orderly fashion within the scope and purpose defined in our comprehensive plan. Our recommendations to Town Council are normally in response to the requests of Town Manager, the Town Council, Planning Board, Town Planner, Code Enforcement Officer and town residents for changes in our zoning codes that better represent the desires and needs of the people who live and work in the town and have to abide by the regulations carried in those ordinances. Before a recommendation is made, considerable effort is put into researching the reasons behind a requested change, the best methods to be used to attain the desired result, and possible ramifications and effects that a zoning change might have on others along the way. Our meetings are conducted in a public forum and input from the public is needed, desired and welcomed. Meetings are normally held the first Thursday of each month upstairs in Stimson Hall. I hope you can take time to attend.

One of our first projects for the past year was to finish the development of Design Guidelines for commercial construction and renovation. Through the cooperation of the Gray Business Association (many thanks!), Town Planner, Planning Board, Town Council and the ORC members, Advisory Guidelines dealing with site layout, building design and lighting for commercial growth were developed. These guidelines are presented to potential permit applicants interested in development in commercial zones. It is suggested that they consider incorporating as many as possible into their upcoming projects to promote safe, harmonious, neighborly growth.

We looked into Day Care Facilities, for which the ordinance had carried no provision for centers serving more than twelve. We reviewed State licensing requirements; discussed the potential of utilizing school buildings for after-school programs; talked about lot sizes, safety and sewage problems; and looked at the possibilities of Day Care Facilities serving the elderly and/or handicapped individuals. The result was that definitions for Day Care Facilities were simplified and clarified, and the use was extended in an expanded form to most zones except Shoreland and Wellhead Protection, subject to Planning Board review.

The Lake District was revisited this year, as there had been numerous requests for a reduction in minimum lot size to conform more to the Shoreland

Zone. The previous four-acre minimum lot size in the Lake District tended to promote an increase in infrastructure responsible for part of the Phosphorous runoff we would like to diminish in our watershed areas. Many of the ORC had hoped that the Phosphorous Control Ordinance developed last year could be accepted and incorporated in some form at the time of the lot size reduction to help protect our lakes, but that has not happened. After much discussion, we finally did recommend a reduction in the minimum lot sizes to 80,000 square feet, and added some wording to the requirements for the zone to help protect our watershed resources.

There were other recommendations following requests made in Commercial zones to allow for multiple buildings on a single lot (such as storage buildings). Changes were also made in the classification of some property in the Commercial Zone previously considered to be in Resource Protection, but which was actually found to be well above the elevation of the wetland.

Multifamily dwelling units were reviewed on the concern that lot sizes might not be adequate for sewage disposal. We found that most multifamily dwellings have single sewage systems that are only marginally larger than an average single-family dwelling. Our minimum lot size requirements are similar to or slightly larger than surrounding towns, and, in most cases, twice the size of the State of Maine minimum lot sizes. We considered total lot areas compared to the average amount of a lot developed, and determined that there was usually enough room to replace a sewage system a number of times. No changes were recommended.

The most recent item we addressed was maximum height limitations in the Business District zones. A request for taller buildings was presented to allow for higher ceilings common in commercial structures, and to reduce building sprawl, footprint and impervious surface. The request was accompanied by a letter from our Fire Chief, outlining fire truck requirements for the additional height. The recommendation we made for increases to a maximum of 54 feet are subject to Site Plan review by our Fire Department to provide for access and safety issues.

In addition, there were numerous workshops on different topics with the Planning Board, DEP and CEO, resulting in wording changes and definition clarification necessary to keep our ordinances in good understandable legal status.

Our first project for the coming year will be to

look into expansions of seasonal dwellings and conversions of seasonal dwellings to year-round use, as requested by our Code Enforcement Officer. We will also be reviewing our Subdivision Ordinance.

Many thanks go out to Anneliese Schultz, who has recently left our committee. She has been a tireless, long-term member of the ORC, and a wealth of

information. We hope her move to Brunswick works out well. If anyone is interested in becoming a member of the ORC, contact Dick Cahill at the Town Office, or anyone on the Town Council or ORC.

Respectfully submitted,
Scott Lowell

Planning Board

Over the years the Town has done a fine job refining and defining, revising and codifying its land use ordinances. Those Laws say what can and cannot be done on your property (a restriction which not everyone likes) and what can and cannot be done on the property next to you (a restriction which most people like). The Planning Board oversees certain land use matters as defined by the ordinances. It is not a political body--it cannot enact regulations, establish policy or make its decisions by a majority vote of citizens. Instead, its responsibilities are to review development projects to insure adequate consideration of the environment, safety, compliance with Town standards, and to minimize any negative impact on adjacent properties and the community. Our motions can often involve long lists of conditions related to such issues as lighting, parking, drainage, landscaping, traffic, erosion, signage, emergency access and subsurface waste disposal.

The Planning Board, among other things, reviewed an acted upon three minor subdivisions, two daycare facilities, twenty-six shoreland zoning applications, and six site plans including a two-story office building on

Route 100, an apartment complex on Whitney Road, an antique shop, a proposed addition of a three-story building at Gobeil's Country Farm Furniture, a new autobody and used-car sales building and a four-unit apartment complex on Yarmouth Road. In addition, the Board held several workshops, all designed to improve the processing and flow of information and applications.

Two veteran members, Ron Norton and Jack Goosetrey, resigned from the Planning Board during the course of the year after being elected to the Town Council. Their knowledge and dedication has been greatly appreciated by the Planning Board.

The majority of our applications provide for public hearings, and it always helps the Board to receive extra input when reviewing a development proposal. We hope you will watch The Gray News for notices of Planning Board agendas, and feel welcome to attend those meetings to ask questions and offer suggestions.

Respectfully,
Gail P. Walker
Chair

Gray Fire & Rescue

This was an exceptionally busy year for our department, with all the training that the members undertook and the STORM OF '98. the commitment from the department was unbelievable, and they are to be commended for their dedication.

The two new pieces of fire apparatus were put into service with great pride as the members exemplified on various occasions, and the town is to be recognized for its support of the department also.

Once again, I have to commend the members for their commitment to training, which represent

numerous hours. Among the training programs our members attended: First responder class (2 participants); Maine Fire Training & Education FFI at the Academy for 9 days (one participant); Maine State Weekend National Fire Academy, Emmitsburg, Maryland, Arson Detection (2 participants); EMT Basic (one participant) (120 hours); Southern Maine EMS Conference (2 participants) (8 hours); CPR Instructor Course (4 participants); Cumberland County Fire Attack School (2 days); Fair Labor Standards Workshop, Skills Lab Course (10 participants); New

England Chiefs Conference (2 participants). In addition, we have started another FFI Course with 4 personnel involved. These trainings are all put on by an outside instructor, or we attended the training or conference outside of Gray. Some of these classes are 4 hours long, others 8; some take up to 120 hours. This is a commitment these people are willing to make. WE also do our in-house training for fire on Monday evenings and rescue on Wednesday, which average 3 or 4 hours per session. Once again, I want to thank my officers and members who give so freely of their time to these training programs; it reflects in how we do our jobs.

We are in need of personnel for our Fire Police, especially during the daytime. Our Cold Water Rescue is coming along slowly, but we are beginning to see some light at the end of the tunnel.

Our Dry Hydrant committee was able to get three of them installed this past year, and hopefully we will be able to get two or three more in the coming year. I would like to thank Dick Wood for all his time and effort that he has put into this project.

I am also pleased to announce that FF. Rob Morrison, son of Deputy Morrison, was able to convert old Rescue Two over to what we call our Special Services Unit this past year as part of his EAGLE SCOUT project. Thanks, Rob, for a job well done.

I want to thank all the faculty that was involved with our LEARN NOT TO BURN program at the Russell-Pennell Schools this past year. There is not a doubt in my mind of what a difference this has made with the children involved, and how it has affected the parents as well. A special thanks to Mike Carroll for coordinating this program. This coming year we will be expanding on this, hopefully.

I want to thank our Public Works Director, Steve LaVallee, and his crew for being there whenever they were needed, during storms or whatever the situation warranted.

I want to thank the Dispatchers for a job well done over the past year. They were outstanding during our Ice Storm '98. They have issued 1,904 burning permits this past year—up some 700 from last year, which I'm sure is attributable to the storm. Once again, they provide a very important service to our Public Works people. They handled some 10,285 telephone calls and some 15,344 walk-in calls at the Public Safety Building. As you can see, they are certainly busy.

I want to remind the citizens that a Burning Permit is required at all times. I do want to inform you that if we receive a complaint find it to be valid, you will be instructed to extinguish the fire. We do not issue permits on week days during the months of April through November unless we have snow on the ground

or we have had rain. If you have any question, call 657-3931. I want to thank all of

you for cooperating by getting the permits as required.

I want to thank the business in town that allow their employees to leave work when they are needed by Fire & Rescue. I also would like to thank all the individuals that have contributed to our fundraisers, or that have made donations in behalf of someone. These funds are used to purchase equipment that makes our task a little easier to perform—or they may make a difference in saving a life or property.

I want to thank our neighboring towns for their assistance when called upon for Mutual Aid, which is so vital to our department, specifically, New Gloucester, Cumberland, Windham, North Yarmouth and Raymond. I would also like to inform the citizens that this type of assistance does not only come from our neighboring towns, but from away as well. During the Ice Storm, I received calls from Chiefs along the coast whose towns were not affected to see if they could help us in any way.

I will only mention our ICE STORM '98 to remind you how faithful and dedicated our personnel were during this time of emergency. They all were willing to give of themselves just make sure that our fellow citizens were not neglected. I want to THANK everyone that was involved for a job well done. Without you folks, we wouldn't have been on the national news for the rest of the country to see.

We have a year behind us with better coverage for the town with the addition of a per-diem, full-timer, Chad Carroll, a native of the town, and more administrative help. With this staff, we are able to perform inspections, review of codes and—most importantly—provide services to the elderly for their well-being. I feel we are very fortunate to have the six so-called "per-diems" that we have; they are all FFII but one, and they are all Paramedics.

I would at this time like to THANK the Town Manager and Town Council for their continued support.

The Fire-Rescue Department has responded to a total of 815 calls this past year. The breakdown is as follows:

I would like to THANK all the members that participated in the Memorial Day Parade as a marching unit. As most of you know, that is a dream I have had for a number of years. It was so rewarding to hear the comments from the citizens of Gray, and to have the pictures that were given to the department from numerous people.

I want to thank my officers and members for their dedication and services which they have given this past

year to the TOWN OF GRAY.

Once again, THANKS to one and all for your continued support.

Respectfully submitted,
Jon E. Barton

Department of Public Works

It is with great pleasure that I submit to you the annual report of the Department of Public Works.

The summer of '97 was another very busy season. The major reclamation was Dutton Hill Road (2.2 miles or 24,523 sq.ft. reclaimed and then resurfaced with 2,724 tons of hot bituminous concrete). Other roads resurfaced this season included Long Hill Road (1.74 miles/1,575 tons); North Raymond Road (2.38 miles/1,962 tons); and Weymouth Road (2.13 miles/1,757 tons), for a total of 6.25 miles of resurfacing at a total of 5,234 tons. After the installation of shoulders for the above-mentioned roads, the department spent the rest of the season doing routine maintenance. In late summer/early fall, a contract was awarded to Scott Dugas & Son for construction of a section of Hunts Hill Road. Dugas did an excellent job for the Town, greatly improving a major problem spot.

The Ice Storm of '98 was the major story of this past winter season. The storm presented major problems to the department, but, as usual, the men went about their tasks and eventually things returned to normal. I would like to thank some businesses and citizens who assisted us during this disaster: Bruce Emery & Sons, Holmes Excavation, Whitney Tree Service, F.A. Wing Paving, A.H. Grover, Inc., J. Maxwell Trucking, Dennis Durgin, Ed Milose, Mark Sanborn, Tony Cook, Pete Gerardo, Chris LaVallee and Bruce Corcoran.

Also, thanks to our local organizations: Town of Gray Dispatch & Public Safety, American Red Cross, Maine State Police, Cumberland County Sheriff's Department, Pine Tree Telephone, Central Maine Power, S.A.D. 15, Maine Department of Transportation (Gray Camp and Scarborough), Town of Raymond Public Works (Nate White), all private road associations and any other citizen/business I may have

missed. Of course, I can't forget my people at Solid Waste, Public Works and the Town Office. I hope we never have to face anything like this again, but if we do, we will be ready.

Over the course of the winter, we used 1,500 tons of salt, 12,000 yards of sand, 2,500 gallons of calcium and many hours of overtime, all of these straining our budget. We were very fortunate that FEMA reimbursed us for 90% of the ice storm damage, thus helping our budget.

Our short-range plans are to upgrade the infrastructure, especially the gravel roads. We started the upgrading of our communication system and we are in the process of studying the feasibility of a new Public Works/Solid Waste facility.

The Transfer/Recycling Center continues to prosper. Our waste-to-recycling tonnage ratio continues to improve. In 1997/98, our recycling rate was 35%, much higher than the State's expected average of 30%. At this time, I would like to thank all of the volunteers and members of the Solid Waste Committee who volunteer countless hours to continue to make our operation successful. I would also like to thank all of the citizens of Gray for their recycling efforts, and I strongly encourage them to continue. Again, we are in the process of studying what we can do with the facilities to make recycling a much easier task and a more profitable venture to the Town.

Once again, I want to thank Chief Barton and the Department of Public Safety for the many assists during the past year. I also would like to thank the Maine State Police and Cumberland County Sheriff's Department for their many assists.

At this time, I wish our former Town Manager, Paul Bird, good luck in his future endeavors, and extend to him my gratitude for his many years of support.

The Town of Gray has greatly benefited by his presence.

Also, a big thank you to all the citizens of Gray who volunteer their time to serve our departments, and all of the citizens who show courtesy to us while we continue to improve the safety of our Town ways. And last, but not least, thanks to Dottie, Meredith, Denise,

Donna, Helen, Debbie, Dick and Reneé, whose constant support makes my job so much easier.

Respectfully submitted,
Steve LaVallee
Public Works Director

Community Economic Development Committee

1997/98 was another productive and eventful year for the Community Economic Development Committee (CEDC). In November, the citizens of Gray voted to create the ROUTE 100 TIF (Tax Incentive Financing) District. It is our belief that the District will provide the funding vehicle to extend town water to this area, thereby allowing the town to promote economic development that will create additional top quality jobs for Gray.

The CEDC also requested and received budget support from the Town Council and the Citizens of Gray to develop and prepare an INFORMATIONAL BROCHURE describing the positive qualities that Gray offers business that bring additional quality jobs to the area.

Next year the CEDC goals are to:

1. Complete the INFORMATIONAL BROCHURE
2. Assist the Northbrook and Route 100 TIF applicants in achieving their goals of securing additional development in the

respective districts.

3. Meet with citizens, existing businesses, other town committees and the Town

Council to analyze and evaluate the desirability and probability of attracting a developer to build a top quality CONFERENCE CENTER in Gray.

4. Determine if the two access lanes located between Stimson Hall and the

Monument can be consolidated to allow for the creation of more "Green Space" in Gray Center.

I would like to take this opportunity to thank Donnie Carroll, Jack Goosetrey, Lynn Olson, Karen Cocks and Jim Morey for the many hours of dedicated effort they have donated to improve the quality of our town.

Respectfully submitted,
Ralph Wink
Chair

Community Antenna Television Committee Gray Public Access, GCTV-2

1997-98 was a very productive year for Gray Public Access Cable. The Committee expended several thousands of dollars on renovations of your production control room, new editing equipment (which we have never had before), two new cameras and switching equipment to enhance our production capabilities. We have purchased an automated video playback system and new computer which will make programming available at more times throughout the day. We have expanded the plant capabilities by adding live program return sites at the High School, Middle School and

Library, all of which will allow us to broadcast live from these sites as well as Stimson Hall.

All costs for renovation and equipment were paid for from cable franchise fees collected over the years. There was no tax money or general fund money expended.

Plans for the immediate future call for public training seminars in video camera use, editing of tapes and set backlighting. We are exploring at least two monthly talk shows (but need local help to do so) and an increase in local programming and productions to be aired on Channel 2. Our future plans, however, are

dependent upon volunteers, both young and old, working or retired, who can donate four hours a month to making GCTV-2 the community resource it should be. We need you to operate cameras, help set up studio sets, conduct interviews, edit tapes and more.

I would like to thank Greg Diehl, our past chairman, and Sally Johnston for the years of dedicated service they have given to the Cable Committee. They will be leaving the committee in 1998, and will be missed.

Additional thanks go to Craig Clark, Jerry Grant, Mary Bosse, Tony Cook, new cable committee member Thoma Thureau and Production Manager Georgia Humphrey for their assistance in making local cable access television available. Other volunteers--Bob

Hersey, Warren Jensen, Ron Howard and the video technology students from MSAD 15--have made it possible for us to bring live broadcasts of Town Council meetings, School Board meetings, political debates and other public service programming directly into your homes. Without these people, there would be no local public access television.

Finally, thank you to the citizens of Gray and to the Town Council for being so supportive of our operations in serving you, the Citizens of Gray.

Respectfully submitted,
Bradley J. Fogg
Chair

Parks and Recreation Department

It is the purpose of Gray Parks & Recreation to improve the quality of life for residents by offering recreational, social, leisure and cultural programs for all ages. The department is responsible for all recreation programs, the day-to-day operations of the Newbegin Gym and Wilkies Beach.

Parks Division: The parks division of the department continues to keep pace with the demands of Wilkies Beach. There has been a substantial increase in vandalism on our only true town park, which has put unprecedented demands on both Parks & Recreation and the town maintenance staff. We have come too far in the past five years getting the beach to be a place the residents can be proud of to let vandalism and inappropriate behavior bring it down. Over the winter months, these issues will be addressed with the Council and the Town Manager. Now that we have a mower and basic equipment to maintain grounds and fields, we are improving the looks around Newbegin. Currently, we are mowing the athletic fields behind the gym along with the grounds around Newbegin and the old school maintenance building.

Recreation Division: Our youth recreation programs include many varied activities. In the winter/spring months, we offer a learn-to-ski program, basketball leagues, indoor soccer league, after-school intramural activities and various special events. In the summer and fall months, an extensive summer day camp program is offered, two soccer camps, tennis lessons, golf lessons, fall soccer league and various other special events. Adult programs include men's pickup basketball, women's pickup basketball,

pickup softball, whitewater rafting and special events for senior citizens. Many activities and programs are also offered at Newbegin Gym on a rental basis or through this department--karate lessons, gymnastic lessons, ballet lessons, toddler play group and Red Cross babysitting courses, to name a few.

Newbegin Gym: The gymnasium is used extensively throughout the year for recreation and leisure activities. When time allows, birthday parties, private functions and meetings are scheduled. The municipal and school district also hold voting at Newbegin. In November, we have our annual Christmas Craft Fair, which is always a big success. In December, Santa Claus pays us a visit.

Whether the economy is experiencing an increase or decrease in pressure, our enrollments are consistently increasing. Most programs reflect a 15 to 25% increase annually. This indicates that the townspeople utilize town recreation programs to a greater degree regardless of the trend.

Many parents and students volunteer as coaches and instructors in the various programs. We are most appreciative of your services. Thank you also to the many civic groups and clubs that help create a quality way of life here in Gray.

We look forward to another year of service, and hope we can offer many new and varied activities and programs to all residents. We are always open to suggestions that will improve our department.

Dean Bennett
Director

Library Mission Statement

The purpose of the Gray Public Library is "...to provide books and related materials that will assist residents of the community in the pursuit of knowledge, information, education, research, and recreation in order to promote an enlightened citizenry and enrich the quality of life."

The Gray Public Library provided many services to the community during the past year in order to achieve this objective. The services provided include:

1. Interlibrary loan (borrowing books from other libraries to meet the needs of our patrons)
2. Readers advisory (the staff is required to have a working knowledge beyond the use of reference materials in order to recommend works of fiction and non-fiction, and to be familiar with resources that proved readers advisory)
3. Reference service (assisting patrons to find specific pieces of information)
4. Bibliographic instruction (teaching patrons how to use the library efficiently)
5. Children's programming (story hours and special events)

6. Adult services (programs aimed at adult audiences)

7. Timely response to patron needs (purchasing books and materials requested by our patrons)

8. Internet access (to allow patrons information beyond the physical constraints of the Library)

Librarian's Report

The 1997-98 fiscal year was a year of growth at the Gray Public Library. The Town, Trustees, Friends, staff and volunteers worked hard to accomplish several goals set at the beginning of the year. The following is just an outline of the achievements of the past year.

Several improvements were made to the Library building over the past year. They include a new deck, air conditioning and children's furnishings. These improvements have made the Library a more inviting, comfortable place for our patrons.

The Board of Trustees instituted several new or revised policies. Policy changes and additions include Unattended Child Policy, Behavior Policy and Internet Policy.

Volunteers in the Library contributed over 200 hours a month. Duties performed by the volunteers included shelving materials, reading stories, watering plants, processing materials and publicity. The Library would not survive without such dedicated people.

The Library received several wonderful donations in FY 1997-98. Two computers, four computer tables, several chairs and thousands of books were among the contributions.

The Friends of the Gray Public Library held two book and bake sales this year. With the proceeds, they supplied museum passes to the Portland Museum of Art and the Children's Museum of Maine, landscaped the deck and front areas of the Library and provided a baby-changing table in the restroom. Gray Public Library Friends also sponsored several programs, including Family Reading Night and Dr. Seuss Day.

The Library "weathered" the Great Ice Storm of 1998. On the fifth day without power, the Library reached temperatures as low as 40 degrees. Subsequent power surges and outages wreaked havoc with the computers. The largest impact of the storm was on January circulation that showed only a small increase over January 1997.

Gray Public Library strived in 1997-98 to work

more closely with other town organizations. This year the Gray Historical Society held monthly meetings in the Library. Library staff visited local schools to encourage summer reading, and the Friends worked with Gray Park & Rec to provide summertime programs. Statistical reports demonstrate the increased

usage of all Library services. In addition, the Library added Internet and phone reference service.

Melanie Coombs
Librarian

Pennell Institute Alumni Association

The Pennell Alumni met for their annual reunion on July 18, 1998. This year was only the afternoon session, with a business meeting. An election of officers was held, and they are Co-Presidents Jean Dunn and Jane Barton, Secretary Margaret Wilson and Treasurer Yvonne Wilkinson.

The Pennell Clock Tower is in desperate need of repair. We are trying to raise money for this project.

Donations have been coming in, but we are short a lot of dollars. If you think this is something you would want to donate to, you can send your donation to Donna Hill, in care of the Town Office.

Respectfully submitted,
Jean Dunn and Jane Barton
Co-presidents

Gray Historical Society

Our members are interested in the history of Gray. We would like others to join us and become aware of the history around them. The meetings are held each month on the second Wednesday at 7:00 P.M. at the Gray Public Library. (This change was made because the Library is handicapped-accessible.)

GHS' museum is located on the second floor of Pennell Institute. The public is welcome to visit the Museum during National Museum Week in June and during "Open House", which is on Pennell Alumni Reunion Day. You are welcome to call the curator, Margaret Sawyer, for a special appointment to see the museum or to do research. School children and adults have been given special tours and special programs on request this year. We have gathered information to put on the Town of Gray's Website.

The Historical Society sponsored several programs this past year, including a slide show on Jerusalem by Barbara Randall; the opening of the Museum on Alumni Day in July; a talk on the Fire of 1947 by Lawrence Dolby; a slide show on Newfoundland by Red and Olive Lewis; and a slide show on Mount Washington by Connie Kippax. The third annual

Christmas Tree Lighting ceremony in front of Gray's Town Hall in November was a beautiful sight, and special thanks go to the Congregational Choir for their music. We closed the year's events by having a picnic on July 13 at the top of Quaker Ridge.

The Society continues to assist in support of the Dry Mills School House restoration. The interior is ready for books and artifacts. The committee would appreciate donations if you have any such items. It looks like the building could be opened for tourists in the coming summer. All we need to open is volunteers. This past year, the Society has become concerned with the moving and landscaping of the Civil War Soldiers Monument. We encourage the town people to continue to help with the many needs of our projects. Getting involved with such projects is certainly a way to appreciate the historical values and the purpose of our Society.

There are still Woolen Mills T-Shirts available from members of the GHS, if you wish to purchase one or two. The proceeds helped to fund the Samuel Mayall Day. Plans are in the works to have a second Mayall Day; if you would like to help, or have suggestions,

please let us know.

The Gray Historical Society attends many informative meetings throughout the year pertaining to the organization and the protection of materials and artifacts. We are members of S.C.O.R.E., a non-profit historical management organization in Southern Maine.

Our dedicated members continue to inventory the Society's collections of articles that have been donated

through the years. If you have any photos or items concerning Gray, please think of the Museum and call us.

This year's officers are: President, Louise Knapp; Vice President, Mae Beck; Secretary, Karen Taylor; Treasurer, Howard Black; Historian/Curator, Margaret Sawyer; Financial Secretary, Helen Davis.

The Historical Society thanks all who continue to support our programs.

Dry Mills School House

We thought when we had our dedication last October, we had made great progress. When the floor rumbled, we learned we hadn't gotten all the rotten boards; that was a great setback. It has since been repaired, screens made and a window in the crawl space put in. Also, a trap door was made and installed on the left side of the entry way; that has been left open to help dry out the crawl space.

Right now we have ordered a plaque for historic places to be placed on the right side of the door. We're also working on construction and installation of an outhouse for the handicapped.

Mae Beck
Chair

Gray Health Council

The year has been busy with requests for health care equipment. We have at the Public Safety Building on Route 26 wheelchairs, crutches, commodes, walkers and canes available for the use of the residents of the Town of Gray at no charge. All we ask is that you take care of the article you borrow, and return it in good condition.

We still sponsor the Flu Clinic on the third Tuesday in October, from 9:30 A.M. till 11:30 A.M. at the Congregational Church Parish House. This is for adults 18 years and up.

The well-child clinic, sponsored by us with the

nurses from Community Health Services, is on the second Wednesday of the month, and WIC is on the second Thursday of the month. These are also held at the Congregational Church Parish House on Brown Street, behind McDonald's.

Our Well-Child Clinics, WIC and Flu Clinics continue to service more residents every year.

My thanks to all volunteers. Your assistance is greatly appreciated.

Respectfully submitted,
Agnes Stansfield, Chair

**INDEPENDENT AUDITORS' REPORT**

Board of Trustees
Gray Water District
Gray, Maine

We have audited the accompanying balance sheets of Gray Water District as of December 31, 1997 and 1996 and the related statements of revenue, expense and retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Gray Water District as of December 31, 1997 and 1996 and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedules of operating revenues and expenses are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Gray Water District
NOTES TO FINANCIAL STATEMENTS
December 31, 1997

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Gray Water District, a quasi-municipal water utility, maintains its accounting system according to the rules and regulations prescribed by the Maine Public Utilities Commission.

Plant Materials and Supplies

Materials and supplies are recorded at cost, determined on a first-in first-out basis.

Depreciation

Operating plant and equipment are depreciated by the straight-line method with lives ranging from five to seventy-five years.

Bond Discount and Expense

Bond discount and issue costs are being amortized over the life of the bond issue.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. DEBT

Long-Term

The unsecured indebtedness of the District follows:

	1997	1996
6.6% to 7.3% serial bonds, dated October 26, 1988, maturing October 25, 2006.	\$340,000	\$380,000
9.6% to 10% serial bonds, dated October 24, 1984, maturing January 1, 2004.	105,000	120,000
5.14% to 5.24% serial bonds, dated May 29, 1997, maturing November 1, 2007.	<u>200,000</u>	<u>-</u>
Total debt - December 31,	645,000	500,000
Less: Current maturities	<u>70,825</u>	<u>55,000</u>
Long-term debt - December 31,	<u>\$574,175</u>	<u>\$445,000</u>

Annual principal payments on long-term debt follows:

1998	\$ 70,825
1999	71,632
2000	72,480
2001	73,372
2002 and later	<u>356,691</u>
	<u>\$645,000</u>

3. CASH FOR CONSTRUCTION AND DEBT

The deposits represent funds designated for acquisition and construction of new operating plant, which have been deposited in interest-bearing accounts until the funds are used.

4. DEPRECIATION ON CONTRIBUTED PROPERTY

For financial purposes, recognition has been given to the depreciation on contributed plant through charges to the contribution account. Net income has not been decreased for the depreciation on contributed property and reflects the District's income on the basis of accounting practices prescribed by the PUC.

For The Year 1997

Contributed Property - Accumulated Depreciation

Wells	\$ 30,000	x 2.0%	\$ 600
Mains	683,225	x 1.3%	8,882
Services	96,760	x 3.0%	2,904
Meters	35,326	x 4.0%	1,413
Meter Remotes	926	x 7.5%	69
Hydrants	58,174	x 2.0%	<u>1,163</u>
			\$ 15,031
			<u>154,413</u> Prior years
			<u>\$169,444</u>

5. CONTRIBUTIONS AND ADVANCES IN AID OF CONSTRUCTION

Customers advances on construction include advances from customers which may be refunded wholly or in part. Advances are held until it is evident that no further refunds will be paid, but in no event are they held beyond ten years. Advances not refunded are transferred to contributions in aid of construction.

6. CONTINGENCY RESERVE

Maine law allows a quasi-municipal water utility to provide for a contingency reserve allowance by charging rates that reflect a 5% addition to the yearly revenue requirement. When the contingency allowance becomes excessive, regulatory rules prescribe that the excess be returned to the ratepayers in various manners.

7. DEFERRED COMPENSATION PLAN

The District has a deferred compensation plan through IDS Financial Services which qualifies under Internal Revenue Code Section 457. Eligible employees (two) may contribute up to 6.5% of wages, and the District contributes 10% of eligible wages. District contributions to the plan for 1997 were \$5,760.

8. PREPAID LEGAL FEES

The District incurred \$43,434 of legal fees in negotiations with McKin Corp. for a long-term settlement of potential underground water contamination. No settlement has been reached to date, future legal fees will be incurred, and the District is amortizing these costs over a ten year period.

9. RESTATEMENT

Depreciation expense for 1996 was overstated in the amount of \$3,416. The 1996 financial statements have been restated to reflect this change.

10. CONSTRUCTION WORK IN PROGRESS

The District expended \$164,544 to install new water mains through Gray Village in anticipation of 1998 State Highway reconfiguration. The remainder of the \$200,000 bond issue of May 1997 will be used for construction site restoration completion.

11. CONCENTRATIONS OF CREDIT RISK

The District maintains cash balances at three financial institutions located in Maine. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100,000. At December 31, 1997 the District's uninsured cash balances total \$56,745.

INDEPENDENT AUDITORS REPORT

Town Council
Town of Gray
Gray, Maine

I have audited the accompanying general purpose financial statements of the Town of Gray, Maine, as of June 30, 1998, and for the year then ended, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town of Gray, Maine management. My responsibility is to express an opinion on those general purpose financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards and *Government Auditing Standards* issued by the Comptroller General of The United States.. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Town of Gray, Maine as of June 30, 1998 and the results of its operations and cash flows of its proprietary fund types and similar trust funds for the year then ended, in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, I have also issued a report dated July 17, 1998 on my consideration of the Town of Gray, Maine's internal control structure and a report dated July 17, 1998 on its compliance with laws and regulations.

My audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statement of the Town of Gray, Maine. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in my opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

Keel J. Hood, CPA
