# INDEPENDENT AUDITORS' REPORT

July 31, 2009

Town Council Town of Gray Gray, Maine

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Gray, Maine, as of and for the year ended June 30, 2009, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Gray, Maine as of June 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Gray, Maine's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2009

#### (UNAUDITED)

The following management's discussion and analysis of Town of Gray, Maine's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2009. Please read it in conjunction with the Town's financial statements.

#### **Financial Statement Overview**

The Town of Gray's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, and other supplementary information which includes combining and other schedules.

### **Basic Financial Statements**

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

#### **Government - Wide Financial Statements**

The government-wide financial statements provide a broad view of the Town's operations in a manner that is similar to private businesses. These statements provide both short – term as well as long – term information in regards to the Town's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government – wide financial statements include the following two statements:

The Statement of Net Assets – this statement presents *all* of the government's assets and liabilities with the difference being reported as net assets.

The Statement of Activities – this statement presents information that shows how the government's net assets changed during the period. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

The above mentioned financial statements have one type of column for the towns activity. The type of activity presented for the Town of Gray is:

 Governmental activities – The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). Most of the Town's basic services are reported in governmental activities, which include general government, public safety, public works, education, buildings, recreation and culture, and donations and other unclassified.

#### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Gray, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the Town of Gray can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds: Most of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government – wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the Town's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the Town.

Because the focus of governmental funds is narrower than that of governmentwide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The Town of Gray presents only two columns in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The Town's major governmental fund is the general fund. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements. The general fund is the only fund for which the Town legally adopted a budget for. The Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Fiduciary Fund Financial Statements.

#### **Required Supplementary Information**

The basic financial statements are followed by a section of required supplementary information, which includes a schedule of Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund.

#### Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regards to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund.

#### **Government-Wide Financial Analysis**

Our analysis below focuses on the net assets, and changes in net assets of the Town's governmental activity. The Town's total net assets for governmental activities increased by \$462,238 from \$14.9 million to \$15.3 million.

Unrestricted net assets - the part of net assets that can be used to finance dayto-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - decreased for governmental activities to a balance of \$6,495,380 at the end of this year

Net Assets - June 30	\$ 15,334,730	\$ 14,872,492

### **Revenues and Expenses**

Revenues for the Town's governmental activities increased by 6.53%, while total expenses increased by 7.49%. Most of the Town's revenues were consistent with the previous year. The biggest increase in revenues was in property taxes, the tax assessment increased by close to \$900,000.

The capital outlay expenses increased this year due to the fact that two projects have been undertaken.

#### Financial Analysis of the Town's Fund Statements

Governmental funds: The financial reporting focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the Town's financial requirements. In particular, unreserved fund balance may serve as a useful measure of a government's financial position at the end of the year, and the net resources available for spending.

Table 3
Town of Gray, Maine
Fund Balances - Governmental Funds
June 30.

		-	
\$	727,272	\$	3,984,222
	3,127,944		3,106,086
	696,865		-
	2,395,800		
	1,509,929		-
	1,741,855		567,560
	-		(207,738)
	157,299		136,087
\$ 1	0,356,964	\$	7,090,308
		3,127,944 696,865 2,395,800 1,509,929 1,741,855	3,127,944 696,865 2,395,800 1,509,929 1,741,855 

The general fund total fund balance decreased by \$3,235,092 over the prior fiscal year. The non-major fund balances increased by \$1,407,095 over the prior fiscal year, with major programs for capital purposes increased by \$4,602,594. Most of the changes in the funds is due to reclassification. The overall increase of fund balance was due to receiving bond proceeds.

#### **Budgetary Highlights**

There was no significant difference between the original and final budget for the general fund.

The general fund actual revenues exceeded the budget by \$189,935. This was a result of property taxes and FEMA revenue. The FEMA revenues classified under intergovernmental was in excess of budgeted revenues by \$141,143.

The general fund actual expenditures were over the budget by \$148,802. The following expenditures were over budget which accounts for most of the balance:

Transfers to other funds	\$1,103,518
General Assistance	49,453

#### **Capital Asset and Debt Administration**

#### **Capital Assets**

As of June 30, 2009, the net book value of capital assets recorded by the Town increased by \$3,249,111 over the prior year. This increase is the result of capital additions of \$3,951,028 less current year depreciation expense of \$701,916.

# Table 4 Town of Gray, Maine Capital Assets (Net of Depreciation) June 30,

	2009	2008
Land and Non-Depreciable Assets	\$ 2,535,076	\$ 124,803
Buildings and Improvements	1,596,295	1,290,415
Furniture and Equipment	154,042	305,335
Vehicles	1,373,290	1,024,934
Infrastructure	4,802,902	4,467,007
Total	\$ 10,461,605	<u>\$ 7,212,494</u>

#### Debt

At June 30, 2009, the Town had \$5,600,000 in bonds outstanding versus \$122,800 last year, the \$5,600,000 is for the town office project and public works/transfer station project.

#### Economic Factors and Next Year's Budgets and Rates

The Town has steadily maintained a sufficient undesignated and crisis fund balance to sustain government operations for a period of approximately four months, while also maintaining significant reserve accounts for future capital and program needs.

#### **Contacting the Town's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town Office at 6 Shaker Road, Gray, Maine 04039.

TOWN OF GRAY, MAINE	
RECONCILIATION OF THE STATEMENT OF REVENEUES, EXPENDITUR CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIE GOVERNMENTAL FUNDS FOR THE YEAR ENDED JUNE 30, 2009	
Net change in fund balances - total governmental funds (Statement E)	\$ 2,726,449
Amounts reported for governmental activities in the Statement of Activities (Statement B) are different because:	
Governmental funds report capital outlays as expenditures while governmental Capital asset purchases capitalized Depreciation expense	3,951,028 (701,916) 3,249,112
Debt proceeds provide current financial resources to govermental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets.	(5,600,000)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds: Taxes and liens receivable	(89,480)
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Net Assets	128,234
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in govermental funds:	
Accrued compensated absences	3,625
Change in net assets of governmental activities (Statement B)	\$ 417,940

STATEMENT F

See accompanying independent auditor' report and notes to financial statements.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Reporting Entity

The Town of Gray was incorporated under the laws of the State of Maine. The Town operates under council-manager form of government and provides the following services: general government services, public safety, public works, health and welfare, education, and recreation.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the Town has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the Town has chosen not to do so.

The Town's combined financial statements include all accounts and all operations of the Town. We have determined that the Town has no component units as described in GASB Statement No. 14 and amended by GASB Statement No. 39.

#### Government – Wide and Fund Financial Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds).

Both the government-wide and fund financial statements categorize primary activities as governmental.

In the government-wide Statement of Net Assets, governmental activities columns are (a) presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The Town first utilizes restricted resources to finance qualifying activities.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions (general government, public safety, etc.). The functions are also supported by general government revenues (property taxes. certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The Town does not allocate indirect costs. All costs are charged directly to the corresponding department.

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net assets resulting from the current year's activities.

#### Measurement Focus - Basic Financial Statements & Fund Financial Statements

The financial transactions of the Town are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Town:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

a. The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- c. Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment.
- d. Permanent Funds are used to account for assets held by the Town in trust for specific purposes.

# Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Budget**

The Town's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

- Early in the second half of the year the Town prepares a budget for the fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the inhabitants of the Town was called for the purpose of adopting the proposed budget after public notice of the meeting was given.
- 3. The budget was adopted subsequent to passage by the inhabitants of the Town.
- 4. The Town does not adopt budgets for Special Revenue Funds.

#### Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the Town's policy to value investments at fair value. None of the Town's investments are reported at amortized cost. The Town Treasurer is authorized by State Statues to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities.
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit unions.
- Repurchase agreements
- Money market mutual funds

The Town of Gray has a formal investment policy.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Inventories

Inventories of supplies are considered to be expenditures at the time of purchase and are not included in the general fund balance sheet. The cost value is determined using the first-in, first-out (FIFO) method.

#### Interfund Receivables and Payables

Any residual balances outstanding between governmental activities and businesstype activities are reported in the governmental-wide financial statements as "internal balances". Interfund balances and transactions have been eliminated in the governmentwide financial statements.

#### Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

#### Allowance for Uncollectible Accounts

The allowance for uncollectible accounts is estimated to be \$60,000 for ambulance accounts receivable as of June 30, 2009.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals, and signs are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. The Town has not retroactivity recorded infrastructure.

Estimated useful lives are as follows:

Buildings	20 - 50 years
Infrastructure	50 - 100 years
Machinery and equipment	3 - 50 years
Vehicles	3 - 25 years

#### Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of notes or bonds payable and compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary fund is the same in the fund statements as it is in the government-wide statements.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Compensated Absences**

The Town's policies regarding vacation and sick time permits employees to accumulate earned but unused vacation and sick leave. The liability for these compensated absences is recorded as long-term debt in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. As of June 30, 2009 the Town's liability for compensated absences is \$165,710.

#### Reserves

The Town records reserves to indicate that a portion of the fund balance is legally segregated for a specific future use, which is indicated by the title of each reserves listed in the balance sheet and statement of net assets. It is the Town's policy to first use restricted assets for restricted programs and only unrestricted assets after the restricted assets have been exhausted.

#### **Revenue Recognition - Property Taxes - Modified Accrual Basis**

The Town's property tax for the current year was levied September 4, 2008 on the assessed value listed as of April 1, 2008, for all real and personal property located in the Town. Taxes were due in two installments on October 1, 2008 and April 1, 2009. Interest on unpaid taxes commenced on October 2, 2008 and April 2, 2009, at 11% per annum.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as deferred revenues.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay, and amounted to \$49,692 for the year ended June 30, 2009.

The property tax collection rate was 97.00% for the year ended June 30, 2009 and 94.65% for the prior fiscal year, an increase of 2.35%.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Program Revenues

Program revenues include all directly related income items applicable to a particular program (grant income/expenses).

#### Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The Town does not utilize encumbrance accounting for its general fund.

#### **Use of Estimates**

During the preparation of the Town's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses / expenditures during the reporting period. Actual results may differ from these estimates.

#### Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 2 - CASH AND INVESTMENTS

The Town's investment policies, which follow state statutes, authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. These investment policies apply to all Town funds.

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Town will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. The Town does not have a policy covering custodial credit risk.

At June 30, 2009, the Town's deposits of \$10,355,756 was comprised of bank balances of \$10,342,628 which were all insured by federal depository insurance or by collateral held by the pledging financial institution's trust department or agent in the Town's name.

Account Type	Bank Balance

	\$ 5,600,000	\$ 2,005,049	\$ 7,813,649
		-	

All bonds and notes are direct obligations of the Town, for which its full faith and credit are pledged. The Town is not obligated for special assessment debt. All bonds and notes are payable from taxes levied on all taxable property located within the Town. The General Fund is used to liquidate the liability for the bonds, and notes.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 5 - LONG-TERM DEBT (CONTINUED)

The following is a summary of capital leases payable for the year ended June 30, 2009:

The Town leases photocopiers with a cancelable clause due to nonappropriation. The term of the lease is for a five year period expiring in August of 2012. Annual payments are \$6,534.

The future annual payments for this capital lease for the years ending June 30, are as follows:

2010	¢	6,534
	φ	and the second sec
2011		6,534
2012		6,534
2013		6,533
2014		
Total minimum lease payment		26,135
Less amount representing interest		(2, 485)

Subdivision Recreation Fund	119,916
Tomco	20,627
Village fire station	 1,142
and a state of the	\$ 727,272

#### NOTE 9 - TAX INCREMENT FINANCING DISTRICT

The Town has established two tax increment financing districts in accordance with Maine statutes to finance development programs located in the Town of Gray. The expenditures from these development programs will be recovered in future years through an incremental tax levied upon the districts' so called "captured asset value". A portion of the incremental tax revenues will be returned to the district to repay principal and interest on any indebtedness to fund the expenditures of the development program and to finance future expansion.

#### Northbrook Tax Increment Financing District

The Town has entered into an inducement agreement and a credit enhancement agreement with Enercon and Advance Realty whereby the Town has issued revenue obligation bonds on behalf of Advance Realty amounting to \$2,800,000. These bonds are not general obligation bonds of the Town and do not constitute a debt or obligation of the Town of Gray, Maine. The bonds will be paid solely by the revenue of the project provided by the companies. In 2008, \$97,332 of tax was captured and \$71,943 was returned to the companies. Additionally, the Town of Gray, Maine entered into an agreement with the Gray Water District to extend the waterline to the Northbrook campus. The Town's share of this project was capped at 30% or a maximum of \$200,000. The debt will be serviced by captured asset value within the district.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 9 – TAX INCREMENT FINANCING DISTRICT (CONTINUED)

#### South Gray Tax Increment Financing District

The Town has entered into a contract with the Gray Water District where the Town will reimburse the Gray Water District 100% of the debt service on debt issued by the District to finance the costs of construction (including design and engineering) of a 16" public water line and related facilities running up to 2.4 miles from Gray Village along Route 100 toward Whitney Road. The combined principal amount of the bonds or notes issued by the Town and by the Gray Water District for such purpose shall not exceed \$1,650,000.

#### NOTE 10 - LANDFILL CLOSURE FUNDS

The Town of Gray closed its solid waste landfill as per State requirements in June of 1992. The Town has reserved \$146,830 for any capital repairs or improvements during the post closure period. The Town considers any liability for postclosure monitoring to be immaterial and therefore has not recorded a liability in the entity-wide statements.

#### NOTE 11 - OVERLAPPING DEBT

The Town is contingently liable for its proportionate share of any defaulted debt by entities of which it is a member. At June 30, 2009, the Town's share was approximately:

	Outstanding Debt	Percentage	_	Amount
Gray Water District	\$ 1,751,646	100.00%	\$	1,751,646
County of Cumberland	7,795,000	2.13%		166,034
MSAD #15	9,214,148	64.55%		5,947,733
			\$	7,865,412

The Town participates in numerous State and Federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Town has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2009 may be impaired. In the opinion of the Town, there are no significant contingent liabilities relating to compliance with the rules and regulations; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

#### NOTE 12 - RISK MANAGEMENT

The Town faces a full realm of risks typical of a thriving entity. Liabilities associated with torts and protections against damage or loss of assets are the general categories of risk for which the Town carries commercial insurance. Specific insurance related to these categories includes general, police and public officials liability coverage, workers compensation, and automobile insurance. The Town is liable for deductibles ranging up to \$10,000 for settlements exceeding the limits of coverage, which range from \$400,000 to \$3,000,000. The amount of settlements has not exceeded insurance coverage for each of the past three years.

NOTE 13 - COMMITMENTS

At June 30, 2009 the Town had no commitments.

NOTE 14 - CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the Town's financial position.

The Town participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the Town's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 15 – DEFICIT FUND BALANCE

The Town had no deficit fund balances / net assets.
