Proven Expertise and Integrity

INDEPENDENT AUDITORS' REPORT

July 26, 2011

Town Council Town of Gray Gray, Maine

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Gray, Maine, as of and for the year ended June 30, 2011, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Gray's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Gray, Maine as of June 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 9 and 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the

United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Gray, Maine's financial statements as a whole. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2011

(UNAUDITED)

The following management's discussion and analysis of Town of Gray, Maine's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2011. Please read it in conjunction with the Town's financial statements.

Financial Statement Overview

The Town of Gray's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government - Wide Financial Statements

The government-wide financial statements provide a broad view of the Town's operations in a manner that is similar to private businesses. These statements provide both short – term as well as long – term information in regards to the Town's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government – wide financial statements include the following two statements:

The Statement of Net Assets – this statement presents *all* of the government's assets and liabilities with the difference being reported as net assets.

The Statement of Activities – this statement presents information that shows how the government's net assets changed during the period. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

The above mentioned financial statements have one type of column for the towns activity. The type of activity presented for the Town of Gray is:

Governmental activities – The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). Most of the Town's basic services are reported in governmental activities, which include general government, public safety, recreation, public works, education and other unclassified.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Gray, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the Town of Gray can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds: Most of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government – wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the Town's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the Town.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The Town of Gray presents two columns in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The Town's major governmental fund is the general fund,. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements.

The general fund is the only fund for which the Town legally adopted a budget. The Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Fiduciary Fund Financial Statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a schedule of Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regards to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund.

Government-Wide Financial Analysis

Our analysis below focuses on the net assets, and changes in net assets of the Town's governmental activity. The Town's total net assets for governmental activities decreased by \$237,995 from \$15,347,994 to \$15,109,999.

Unrestricted net assets - the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - decreased for governmental activities to a balance of \$4,698,189 at the end of this year

Revenues and Expenses

Revenues for the Town's governmental activities increased by 1.93%, while total expenses increased by 4.28%. Most of the Town's revenues were consistent with the previous year.

Financial Analysis of the Town's Fund Statements

Governmental funds: The financial reporting focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the Town's financial requirements. In particular, unreserved fund balance may serve as a useful measure of a government's financial position at the end of the year, and the net resources available for spending.

Table 3

Permanent funds		
Restricted	153,074	154,807
Total Nonmajor Funds	\$ 3,924,070	\$ 4,241,454

The general fund total fund balance decreased by \$1,077,329 over the prior fiscal year. The non-major fund balances decreased by \$317,384 over the prior fiscal year. The major decrease in the general fund came from reclassification of some designated fund balances.

Budgetary Highlights

There was no significant difference between the original and final budget for the general fund.

The general fund actual revenues exceeded the budget by \$244,466. The intergovernmental revenues and sale of assets can be accounted for most of the excess revenues.

The general fund actual expenditures were under the budget by \$296,777. All expenditure categories were under budget with the exception of transfers to other funds.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2011, the net book value of capital assets recorded by the Town increased by \$621,096 over the prior year. This increase is the result of capital additions of \$1,504,041 less current year depreciation expense of \$882,945.

Table 4 Town of Gray, Maine Capital Assets (Net of Depreciation) June 30,

	2011	2010
Land and Non-Depreciable Assets	\$ 5,548,639	\$ 4,658,633
Buildings and Improvements	1,418,933	1,513,615

Vehicles	2,095,722	2,442,425
Infrastructure	4,951,073	4,807,098
Total	\$ 14,268,231	\$ 13,647,135

Debt

At June 30, 2011, the Town had \$5,320,000 in bonds outstanding versus \$5,600,000 last year, a decrease of 5%. Refer to Note 5 of the financial statements for detailed information.

Economic Factors and Next Year's Budgets and Rates

The Town has steadily maintained a sufficient undesignated and crisis fund balance to sustain government operations for a period of approximately four months, while also maintaining significant reserve accounts for future capital and program needs.

Contacting the Town's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town Office at 24 Main St., Gray, Maine 04039.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Town of Gray was incorporated under the laws of the State of Maine. The Town operates under the council-manager form of government and provides the following services: general government services, public safety, public works, education, and recreation and culture.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the Town has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the Town has chosen not to do so.

The Town's combined financial statements include all accounts and all operations of the Town. We have determined that the Town has no component units as described in GASB Statement No. 14 and amended by GASB Statement No. 39.

Government -Wide and Fund Financial Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds).

Both the government-wide and fund financial statements categorize primary activities as governmental.

In the government-wide Statement of Net Assets, governmental activities columns are (a) presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The Town first utilizes restricted resources to finance qualifying activities.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions (general government, public safety, etc.). The functions are general government revenues (property supported by taxes. intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a Operating grants include operating-specific and discretionary business-type activity. (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government - wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The Town does not allocate indirect costs. All costs are charged directly to the corresponding department.

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net assets resulting from the current year's activities.

Measurement Focus - Basic Financial Statements & Fund Financial Statements

The financial transactions of the Town are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Town:

Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

a. The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- c. Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment.
- d. Permanent Funds are used to account for assets held by the Town in trust for specific purposes.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budget

The Town's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

- Early in the second half of the year the Town prepares a budget for the fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the inhabitants of the Town was called for the purpose of adopting the proposed budget after public notice of the meeting was given.
- 3. The budget was adopted subsequent to passage by the inhabitants of the Town.
- 4. The Town does not adopt budgets for Special Revenue Funds.

Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the Town's policy to value investments at fair value. None of the Town's investments are reported at amortized cost. The Town Treasurer is authorized by State Statues to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities.
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit unions.
- Repurchase agreements
- Money market mutual funds

The Town of Gray has a formal investment policy.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Inventories

Inventories of supplies are considered to be expenditures at the time of purchase and are not included in the general fund balance sheet. The cost value is determined using the first-in, first-out (FIFO) method.

Interfund Receivables and Payables

Any residual balances outstanding between governmental activities and businesstype activities are reported in the governmental-wide financial statements as "internal balances". Interfund balances and transactions have been eliminated in the governmentwide financial statements.

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

Allowance for Uncollectible Accounts

The allowance for uncollectible accounts is estimated to be \$100,000 as of June 30, 2011. The full amount of the allowance was for rescue fees.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals, and signs are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. The Town has not retroactivity recorded infrastructure.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimated useful lives are as follows:

Buildings 20 - 50 years Infrastructure 50 - 100 years Machinery and equipment 3 - 50 years Vehicles 3 - 25 years

Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of notes or bonds payable and compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary fund is the same in the fund statements as it is in the government-wide statements.

Compensated Absences

The Town's policies regarding vacation and sick time permits employees to accumulate earned but unused vacation and sick leave. The liability for these compensated absences is recorded as long-term debt in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. As of June 30, 2011 the Town's liability for compensated absences is \$141,314.

Reserves

The Town records reserves to indicate that a portion of the fund balance is legally segregated for a specific future use, which is indicated by the title of each reserves listed in the balance sheet and statement of net assets. It is the Town's policy to first use restricted assets for restricted programs and only unrestricted assets after the restricted assets have been exhausted.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition - Property Taxes - Modified Accrual Basis

The Town's property tax for the current year was levied August 6, 2010 on the assessed value listed as of April 1, 2010, for all real and personal property located in the Town. Taxes were due on in two installments on October 5, 2010 and April 5, 2011. Interest on unpaid taxes commenced on October 6, 2010 and April 6, 2011, at 7% per annum.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as deferred revenues.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay, and amounted to \$111,925 for the year ended June 30, 2011.

The property tax collection rate was 97.4% for the year ended June 30, 2011 and 97.4% for the prior fiscal year.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (grant income/expenses).

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The Town does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the Town's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

and the reported amounts of revenues and expenses / expenditures during the reporting period. Actual results may differ from these estimates.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Fund Equity

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned.

Nonspendable – This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted – This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the Town. The inhabitants of the Town through Town meetings are the highest level of decision-making authority of the Town. Commitments may be established, modified, or rescinded only through a Town meeting vote.

Assigned – This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is expressed by the Board of Selectmen.

Unassigned – This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the Town considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Town meeting vote has provided otherwise in its commitment or assignment actions.

NOTE 2 - CASH AND INVESTMENTS

The Town's investment policies, which follow state statutes, authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. These investment policies apply to all Town funds.

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Town will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. The Town does not have a policy covering custodial credit risk.

At June 30, 2011, the Town's deposits of \$6,661,623 were comprised of bank balances of \$6,699,157 which were all insured by federal depository insurance or by collateral held by the pledging financial institution's trust department or agent in the Town's name.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 5 - LONG-TERM DEBT (CONTINUED)

The following is a summary of outstanding bonds payable:

\$3,200,000, 2009 General Obligation Bond due in annual installments and semiannual interest installments through October 2029. Interest is charged at a varying rate of 2.50% to 4.25% per annum. Annual principal installments are \$160,000.

\$ 3,040,000

\$2,400,000, 2009 General Obligation Bond due in two annual installments and semiannual interest installments through October 2029. Interest is charged at a varying rate of 2.50% to 4.25% per annum. Annual principal installments are \$120,000.

2,280,000

Total Bonds Payable

\$ 5,320,000

Principal and interest requirements to maturity are as follows:

	Principal	Interest	Total Debt Service
2012	\$ 280,000	\$ 172,900	\$ 452,900
	•		' '
2013	280,000	165,900	445,900
2014	280,000	158,900	438,900
2015	280,000	151,900	431,900
2016	280,000	144,900	424,900
2017-2021	1,400,000	602,000	2,002,000
2022-2026	1,400,000	368,200	1,768,200
2027-2031	1,120,000	93,800	1,213,800
	\$ 5,320,000	\$1,858,500	\$ 7,178,500

All bonds and notes are direct obligations of the Town, for which its full faith and credit are pledged. The Town is not obligated for special assessment debt. All bonds and notes are payable from taxes levied on all taxable property located within the Town. The General Fund is used to liquidate the liability for the bonds, and notes.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 5 - LONG-TERM DEBT (CONTINUED)

The following is a summary of capital leases payable for the year ended June 30, 2011:

The Town leases photocopiers with a cancelable clause due to non-appropriation. The term of the lease is for a three year period expiring in September of 2013. Annual payments are \$7,032.

The Town leases vehicles with a cancelable clause due to non–appropriation. The term of the lease is for a five year period expiring in 2014. Annual payments are \$249,836.

The future annual payments for this capital lease for the years ending June 30, are as follows:

2012 \$	\$ 256,868
2013	256,868
2014	256,868
2015	-
2016	-
Total minimum lease payment	770,604
Less amount representing interest	(48,609)
Present value of future minimum lease payments	\$ 721,995

NOTE 6 - EXPENDITURES OVER APPROPRIATIONS

The following appropriations were exceeded and were covered by Council approval according to charter:

	Ex	cess
Stimson Hall	\$	691
	\$	691

The Town Council voted with a separate warrant article to cover this overage from administrative services warrant article.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 7 - RESTRICTED NET ASSETS

The following net assets have been restricted at June 30, 2011 for the following purposes:

Restricted for special revenue funds:	\$ 1,837,062
Restricted for capital project funds	195,438
Restricted for permanent funds	153,074
Total	\$ 2,185,574

NOTE 8 – GENERAL FUND ASSIGNED FUND EQUITY

At June 30, 2011, the assigned fund balances was made up of the following account balances carried forward into the subsequent year's budget:

General Fund: Carry Forwards: GIS mapping \$ 2,000 Public communications 7,118 Public safety services 16,576 Winter roads 5,530 Summer roads 3,654 Garage 3,059 Recycling 1,380 Buildings and grounds 105 11,966 Library Street Reconstruction 31,298 Stimson Hall 4,125 Station #3 2,000 88,811

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 9 – TAX INCREMENT FINANCING DISTRICT

The Town has established two tax increment financing districts in accordance with Maine statutes to finance development programs located in the Town of Gray. The expenditures from these development programs will be recovered in future years through an incremental tax levied upon the districts' so called "captured asset value". A portion of the incremental tax revenues will be returned to the district to repay principal and interest on any indebtedness to fund the expenditures of the development program and to finance future expansion.

Northbrook Tax Increment Financing District

The Town has entered into an inducement agreement and a credit enhancement agreement with Enercon and Advance Realty whereby the Town has issued revenue obligation bonds on behalf of Advance Realty amounting to \$2,800,000. These bonds are not general obligation bonds of the Town and do not constitute a debt or obligation of the Town of Gray, Maine. The bonds will be paid solely by the revenue of the project provided by the companies. In 2011, \$112,688 of tax was captured and \$76,599 was returned to the companies. Additionally, the Town of Gray, Maine entered into an agreement with the Gray Water District to extend the waterline to the Northbrook campus. The Town's share of this project was capped at 30% or a maximum of \$200,000. The debt will be serviced by captured asset value within the district.

South Gray Tax Increment Financing District

The Town has entered into a contract with the Gray Water District where the Town will reimburse the Gray Water District 100% of the debt service on debt issued by the District to finance the costs of construction (including design and engineering) of a 16" public water line and related facilities running up to 2.4 miles from Gray Village along Route 100 toward Whitney Road. The combined principal amount of the bonds or notes issued by the Town and by the Gray Water District for such purpose shall not exceed \$1,650,000.

NOTE 10 – LANDFILL CLOSURE FUNDS

The Town of Gray closed its solid waste landfill as per State requirements in June of 1992. The Town has reserved \$153,818 for any capital repairs or improvements during the post closure period. The Town considers any liability for post closure monitoring to be immaterial and therefore has not recorded a liability in the entity-wide statements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 11 - OVERLAPPING DEBT

The Town is contingently liable for its proportionate share of any defaulted debt by entities of which it is a member. At June 30, 2011, the Town's share was approximately:

	Outstanding <u>Debt</u> <u>Percentag</u>		Amount	
Gray Water District County of Cumberland MSAD #15	\$ 1,192,712 3,772,625 7,771,983	100.00% 2.20% 64.50%	\$	1,192,712 82,998 5,012,929 6,288,639

The Town participates in numerous State and Federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Town has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2011 may be impaired. In the opinion of the Town, there are no significant contingent liabilities relating to compliance with the rules and regulations; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

NOTE 12 - RISK MANAGEMENT

The Town faces a full realm of risks typical of a thriving entity. Liabilities associated with torts and protections against damage of loss of assets are the general categories of risk for which the Town carries commercial insurance. Specific insurance related to these categories includes general, police and public officials' liability coverage, workers compensation, and automobile insurance. The Town is liable for deductibles ranging up to \$10,000 for settlements exceeding the limits of coverage, which range from \$400,000 to \$3,000,000. The amount of settlements has not exceeded insurance coverage for each of the past three years.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

NOTE 13 - CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the Town's financial position.

The Town participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the Town's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 14 – DEFICIT FUND BALANCE

The Town had no deficit fund balances / net assets.

Required Supplementary Information

Required supplementary information includes financial information and disclosures that are required by the Government Accounting Standards Board but are not considered a part of the basic financial statements. Such information includes:

Special Revenue Funds

Special revenue funds are established to account for the proceeds of specific revenue sources (other than fiduciary trusts or for major capital projects) that are legally restricted to expenditures for specific purposes.

Capital Projects Fund

Capital projects funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary or trust funds. The projects also include significant purchases of vehicles and equipment, as well as the servicing of leases and bonds associated with those purchases. Projects are generally segregated by the related Town department managing the project.
